

List of contracts

The legal unit of the Research Directorate assists you in the legal implementation of your valuable public and private research projects. For all your partnership ambitions, or for all your questions on the contractual aspect or on the intellectual property aspect, we advise you on the best legal arrangement to adopt. Thus, we draw up the legal documents necessary to frame the partnership with the objective of ensuring lasting legal certainty and objectifying the valuation of your research. Legal contact: Diana Cheikh - diana.cheikh@utc.fr

We encounter various forms of contract, both on the legal nature of the contract and on the origin of the financier. Below is a non-exhaustive list of common contract types that we can process according to a classification based on the research and innovation process:

1. Preparatory agreements:
 - term sheet
 - Non-Disclosure Agreement (NDA)
 - ...
2. Contracts prior to scientific results:
 - pre-contractual documents (MOU Memorandum Of Understanding, etc.),
 - consortium agreements: public, private, European, Future Investment Program...
 - framework agreements (between private and public partners)
 - ...
3. Contracts for the performance of a scientific or technical service
 - research and study contracts,
 - technical service contracts,
 - service contracts
 - ...
4. Contracts resulting from scientific results
 - contracts for joint ownership of patents and software,
 - the assignment of a patent,
 - patent license,
 - assignment of rights in software,
 - Material Transfer Agreement (MTA).
