LENDING MEANING TO INNOVATION

The university of technology, Compiègne (UTC), is a major french engineering school with a strong technology-intensive research base.

The UTC trains its students for **engineering, Master's degree, PhD and continuing education degrees**, to better understand the interactions of technology with man and Society, and to evolve in a global competitive environment, with a long-term view to integrate and attain sustainable development.

The lecturer-cum-research scientists and engineers at UTC lend meaning to innovation, allowing the emergence of new priority axes for this concept and inclusion of **entrepreneurship training at the heart of their preoccupations**.

Whether it be in terms of training, research, international vista or interactions with private sector companies, **UTC is regularly ranked among the top engineering schools in France**.

850 UTC PERSONNEL

FORMATION

With an 'à la carte' choice of CCs, a choice among 5 Majors in the engineering curriculum and its 6 Master's degrees, each student admitted to UTC is offered the opportunity to build his/her personalised educational path in line with his/her professional ambitions.

Supported by the 8 UTC laboratories, the in-house doctoral school allows those who wish to do so to complete a thesis in engineering sciences.
