LENDING MEANING TO INNOVATION

The university of technology, Compiègne (UTC), is a major French engineering school with a strong technology-intensive research base.

The UTC trains its students for engineering, Master’s degree, PhD and continuing education degrees, to better understand the interactions of technology with man and society, and to evolve in a global competitive environment, with a long-term view to integrate and attain sustainable development.

The lecturer-cum-research scientists and engineers at UTC lend meaning to innovation, allowing the emergence of new priority axes for this concept and inclusion of entrepreneurship training at the heart of their preoccupations.

Whether it be in terms of training, research, international vista or interactions with private sector companies, UTC is regularly ranked among the top engineering schools in France.

FORMATION

With an ‘à la carte’ choice of CCs, a choice among 5 Majors in the engineering curriculum and its 6 Master’s degrees, each student admitted to UTC is offered the opportunity to build his/her personalised educational path in line with his/her professional ambitions. Supported by the 8 UTC laboratories, the in-house doctoral school allows those who wish to do so to complete a thesis in engineering sciences.

UTC CAMPUS LIFE

Each student is encouraged throughout his/her studies to get involved in one of the 110 associations of the UTC. Dancing, music, entrepreneurship, sports... There is a life outside the classroom or lab! Once they graduate, the alumni can benefit from a network of more than 28 300 other UTC graduates, as well as from dedicated events in France and around the world, organized by UTC Alumni.
